SOFTWARE ENGINEER

Joostenbervlakte,
Cape Town
Western Cape

07/12/2022

Application for the graduate software engineer role.

This letter is to inform you that I believe I am the perfect candidate for the graduate software engineer opportunity your company is offering.

I am a 20 year old female looking for a company that I can start my career and grow with. I want to join your company in being part of the next generation of companies defining the future of global trading. I want to take part in challenging tasks and grow with your company.

I am independent, highly self-motivated, a fast learner and passionate as well as enthusiastic. I am committed to my success and doing whatever it takes to reach my full potential. It is clear that your company and my values have lots in common.

I strive to be the best and I believe in improving myself on a daily basis. I believe in teamwork and love working in a team to brainstorm ideas and create solutions. Communication is very important to me. I take any opportunity I get to learn and grow. I always focus on self improvement.

I graduated my Software Engineering bootcamp in November 2022 through Hyperiondev with an average of 98%. I am currently busy with an accredited Database Skills program to further enhance my qualifications.

I am excited to begin my career as a software engineer and I will be honored upon being granted the opportunity to commit to the long-term success of your company.

During my bootcamp I have successfully developed many working Python and Java projects that clearly demonstrates my understanding of SQL, Databases, Problem solving skills and analytical skills, Quality assurance, Object oriented programming, Software debugging, Software testing as well as Agile development. I also created my own website. *More detail about my past projects can be found on my CV or on my GitHub: * <https://github.com/Louchelle> *

Don't hesitate to call should U need more information. Looking forward to hearing from you!!!
